EDUCATION

2017 - now

BIOINFORMATICS, **VILNIUS UNIVERSITY**

Completed programming courses:

Basics of Programming and IT
Object-Oriented Programming JAVA
Object Oriented Programming C++
Bioinformatics I (PERL)
Bioinformatics II (PYTHON)
Computer Architecture
Computer Graphics Algorithms and Technologies
Algorithms and Data Structures
Databases (SQL)
Web Programming
OS Unix Programming

2020

INFORMATICS, **UNIVERSITY OF THE BASQUE COUNTRY**

Completed programming courses:

Databases
Computer Networks
Operating Systems
Operations Research

2013 – 2017

SECONDARY EDUCATION, **VILNIUS LYCEUM**

LANGUAGES

English	C1
Lithuanian	Native
Spanish	A1

PERSONAL PROFILE

I am a fourth year Bioinformatics student at Vilnius University, Faculty of Mathematics and Informatics. I am highly motivated and quick-witted person.

While studying Bioinformatics, I had an opportunity to improve my programming skills and biological knowledge by working alone, as well as in a team.

During my mixed computer and nature science studies, I learned how to quickly switch between different tasks and developed critical thinking. My determination and ability to learn fast are highlighted by my various hobbies, as painting, snowboarding and kitesurfing.

I am now looking to further develop and use my skills as a programmer because I believe in automating anything and everything.
